

Berkshire Autistic Society – Autism Training

Berkshire Autistic Society provides quality training to professionals in a variety of fields to raise awareness of autism and issues associated with autism, proven to enhance both professional and personal development.

Training content includes:

- What is Autism?
- Understanding the needs of people on the autism spectrum
- General traits of people with autism
- Support for people with autism
- Providing an appropriate environment for people with autism

BAS has experience of delivering training to schools; health professionals; solicitors; local authority employees such as sports supervisors and school transport providers.

The introductory 'Autism Awareness Course' lasts half a day and costs £120.00.

Training can be tailored to a specific audience. Please call our Training Team to discuss your requirements. We deliver training at your premises or, for an additional charge, we can hire a suitable venue.
