- and to stop that abuse occurring.

2 Definitions

3 Principles of the policy and procedures

The policy and procedures are based on The Six Principles of Safeguarding that underpin all adult safeguarding work.

Empowerment	Adults are encouraged to make their own decisions and are provided with support and information.	I am consulted about the outcomes I want from the safeguarding process and these directly inform what happens
Prevention	Strategies are developed to prevent abuse and neglect that promotes resilience and self-determination.	I am provided with easily understood information about what abuse is, how to recognise the signs and what I can do to seek help
Proportionate	A proportionate and least intrusive response is made balanced with the level of risk.	I am confident that the professionals will work in my interest and only get involved as much as needed
Protection	Adults are offered ways to protect themselves, and there is a co-ordinated response to adult safeguarding.	I am provided with help and support to report abuse. I am supported to take part in the safeguarding process to the extent to which I want and to which I am able
Partnerships	Local solutions through services working together within their communities.	I am confident that information will be appropriately shared in a way that takes into account its personal and sensitive nature. I am confident that agencies will work together to find the most effective responses for my own situation
Accountable	Accountability and transparency in delivering a safeguarding response.	I am clear about the roles and responsibilities of all those involved in the solution to the problem

The Care Act 2014 and Guidance state that safeguarding:

- Is person led.
- Engages the person from the start, throughout and at the end to address their needs.
- Is outcome focused.
- Is based upon a community approach from all partners and providers.

Autism Berkshire is commissioned by Local Authorities to deliver projects on their behalf. Autism Berkshire will comply with the ***Berkshire multi-agency adult safeguarding policy and procedures*** which are built on strong multi-agency partnerships working together, with adults to prevent abuse and neglect where possible, and provide a consistent approach when responding to safeguarding concerns. This entails joint accountability for the management of risk, timely information sharing, co-operation and a collegiate approach that respects boundaries and confidentiality within legal frameworks.

- Individuals will be interviewed by a trained panel of at least two people, motivation and gaps in employment will be explored.
- **All** candidates who are offered a role will be subjected to an enhance check through the Disclosure and Barring Service (DBS), according to the workforce role and references will be checked.
- If Autism Berkshire removes an individual (paid worker or unpaid volunteer) from work such as looking after adults at risk (or would have, had the person not left first) because the person poses a risk of harm to children, the organisation must make a referral to the Disclosure and Barring Service. It is an offence to fail to make a referral without good reason.
